

Project Initialization and Planning Phase

Date	8 December 2025
Team ID	xxxxxxx
Project Name	Power BI Inflation Analysis: Journeying Through Global Economic Terrain
Maximum Marks	3 Marks

DEFINING PROBLEM STATEMENTS:

PROBLEM STATEMENT 1 :

I am	I'm trying to	But	Because	Which makes me feel
a Data Analyst	combine and compare inflation data across multiple countries.	the data formats and reporting standards vary widely by region.	there is no standardized, centralized data integration process.	uncertain about the reliability of cross-country analysis.

PROBLEM STATEMENT 2

I am	I'm trying to	But	Because	Which makes me feel
a Data Analyst	build predictive models across markets.	many countries lack comprehensive historical inflation data.	historical datasets are incomplete, inconsistent or unavailable.	constrained in producing accurate forecasts.
